*And finally...*

*The thought occurs to me that this newsletter may be the only opportunity I have to make contact with you. This led me to think on what would I want to say to you if I only met you once? The answer I came up with is this:*

*God loves you. He didn't make a mistake when He created you and he has never been further away from you than the breath you breathe, I hope you have discovered this truth for yourself but if not please believe me when I tell you its true. If you can't believe me then remember the cross and recall Jesus' life surrendered willingly so you may know God as your Heavenly Father.*

*If you have read this newsletter and found the information interesting and helpful then it will have served it s purpose. If it has made you think again about God and His purpose for your life then it will have served a higher purpose. We look forward to worshipping with you over Easter.*

*Revd Harry Welch*
